Lupo

Made in Italy

Lupo was founded in **1932** by Carlo Lupo and was dedicated to the production of professional photography studio equipment. At the end of the '70s, the headquarters was tranferred to **Collegno**, near Turin, where it is still located today.
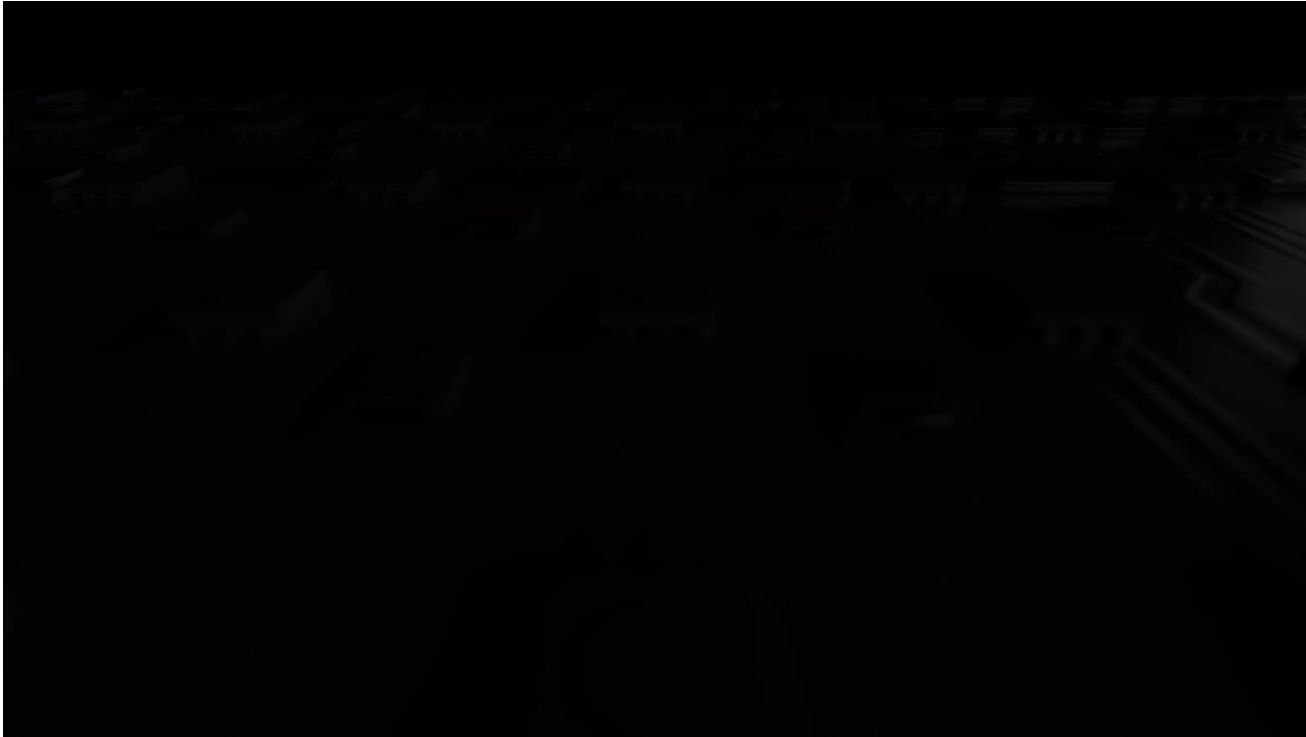

Since 2010, with Andrea and Carlo Lupo, it has concentrated on to the development and production of LED lighting specific to various sectors, particularly television, video, live shows, theatre and photography.

Lupo is a brand that exports "*Made in Italy*" quality, renowned worldwide for its product excellence and technical innovations in the field of professional lighting.

- Accessories

Diffuser, stands, barndoors, egg crate, ect.

Lupo
Made in Italy

General information:

- Very powerful, uniform and enveloping light
- Extraordinary light weight, compact and handy
- Material: polymer with fiberglass
- Attractive price and quality ratio
- Panels with RGBW technology: 5 chips (2 white leds: warm and cold)
- Very high CRI: about 95, and TLCI - 98
- Variabile color temperature: 2800 – 10000 K
- DMX 16 Bit
- Many effects
- Ideal for use inside and outside the studio
- *"Made in Italy"* Quality
- Very short delivery time

Fresnel Dayled 2000 Dual Color

- Dimensions: 300 x 260 x 250 mm
- Weight: 4.8 kg
- Voltage AC: 90 V – 240 V
- Watt consumption: 220 W
- Battery: 28 V
- Frequency (input): 50/60 Hz
- Compliance: CE
- Intensity light dimmer: 1 % – 100%

Lupo

- Variable colour temperature from 3200 K to 5600 K

- DMX bit: 8 Bit / 16 Bit

- DMX channels: 1 – 512

- Colour Rendering Index: > 97 CRI,

  > 98 TLCI

- Dimming curves modes: lineal, exponential and logarithmic

- Can be powered by the mains or on v-mount batteries

Superpanel Dual Color 60
The most powerful 2x1 LED panel on the market

- Dimensions: 650 x 340 x 110 mm

- Weight: 9 kg

- Voltage AC: 90 V – 240 V

- Watt consumption: 400 W

- Battery: two 14.8 V, 160 Wh, standard XLR 4 pin

- Frequency (input): 50/60 Hz

- Compliance: CE

- Intensity light dimmer: 1 % – 100%

- Variable colour temperature from 3200 K to 5600 K

- DMX bit: 8bit / 16bit

- DMX channels: 1 – 512

- Colour Rendering Index: > 96 CRI, > 98 TLCI

- Dimming curves modes: lineal, exponential and logarithmic

Superpanel Full Color 30 RGBW

- Dimensions: 335 x 320 x 100 mm

- Weight: 3.7 kg

- Voltage AC: 90 V – 240 V

- Watt consumption: 200 W

- Battery: 14.8 V, standard XLR 4 pin

- Frequency (input): 50/60 Hz

- Compliance: CE

- Intensity light dimmer: 1 % – 100%

Lupo
Made in Italy

- Variable colour temperature from 2700 K to 10000 K

- Modes: CCT/HSI/RGBW

- Preset: 1 – 19

- Special light effects

- DMX bit: 8 Bit / 16 Bit

- DMX channels: 1 – 512

- Colour Rendering Index: > 96 CRI, 98 TLCI

- Dimming curves modes: lineal, exponential and logarithmic
